AMERICAN BLUEJACKETS TO LAND AT TSING-TAO

Mild Consuls Agree to Move as Safeguard for Foreigners Periled by Revolt

(Copyright, 1927, by Chicago Tribune)
SHANGHAI, July 7. (Exclusive)—After a conference of American, British and German consuls at Tsing-tao an understanding has been reached whereby the United States will send 200 American bluejackets to Tsing-tao immediately, according to advice from Tokio, Tsing-tao, in Shantung Province in the critical point in the Chinese internal war.

The American fleet is to evacuate Americans who are out of town, and the submarine division of the American Asiatic fleet is at Tsing-tao on its regular summer schedule.

Mr. May said "the girls are standard," and in this he was backed by a Detroit delegate who said "young women tempt the boys to assist."

A few girl delegates came to the meeting, and one of them was a general run of girls is not of the influence type."

Representative Hudson, during his discussion added that he did not think Americans were im-

portant in the revolt.

Rev. E. R. Brown, Los Angeles, was over a forum for discussion of the situation, and the delegates toward another who had stopped for the Young People's if it would do away with me.

British naval strength in the South China Sea is estimated at 470,000 tons, and for the U.S. at 450,000 tons.

Japan's Great Britain for cruise destroyers taken together, and the United States only has a minimum of 150,000 tons in destroyers. Japan is estimated for 20,000 more tons for the time being, according to the proposal.

DIFFICULTY FORESEES
DIFFICULTY will be found in inducing Japan to specify what proportion of some surface warships would be allocated the heading of cruisers at under destroyers. But even in accord that that would be done, the Japanese would not exceed the American armament.

As far as the Japanese are concerned, they have called young Northern Chinese units

into their troops to "treat them the same as north-

FORCE RAILWAY

July 7.—The Japanese have sent 100 troops from Tung-chou for the protection of the railway and occupation of Shantung having 1000 for the protection of Manchuria and Mongolia, owing to the bearing of this question on the national defense.

PEKING OBSERVER TO
QUIT **GENEVA** POST

GENEVA, July 7. (P)—Chu Chien-ho, who has been representing the Peking government on the Council of the League of Nations, today informed Sir Eric Drummond, the secretary-general, that he intended to return to China and to become a political mentor to the world's financial capital.

Great Britain also has expressed concern over the recent accumulation of foreign exchange bills by the Bank of England, French and Belgian banks throughout the world. In the United States fears have been expressed that the dollar might be used as a basis for another period of inflation, while foreign bankers have regarded the possession of such large amounts of gold as a potential menace to the world's financial stability.

It is understood that the League deal officially only with the Peking government, the Council will be obliged to accept whenever the Peking government should appear at the Geneva Conference.

Chu also informed the League that he has created a considerable stir in League circles since his action leaves China without a representative on the Council to which it was given a seat at the last session of the League Assembly.

As part of this plan, it is unfortunately reported in some banking quarters that Great Britain will use London as a base to negotiate with the United States to obtain a modification of the present restrictions against the flotation of loans here by France and other countries which have not yet funded their war debt to this country.

SUGGESTIONS REPORTED

Suggestions that part of the gold reserve of the New York Federal Reserve Bank be loaned to the Bank of England, Bank of France and other European banks of issue also are understood to have come within the scope of the conference.

The credit to the Bank of England is to be on the lines of the one granted to the National Bank of Belgium by the central bank a few years ago. Its purpose is the stabilization of the Polish currency, and it is to be converted on the completion of the loan to the Polish government estimated at from \$60,000,000 to \$90,000,000 which is expected to follow the expiration of the \$15,000,000 credit currently available with a New York banking syndicate. While no political motive is admitted in this financing, some bankers regard it as an offset to Russian economic influence in Poland.

Louis Frank, governor of the National Bank of Belgium, is expected here about the middle of the month, but it is not believed that he will arrive in time to participate in the conference unless she were consulted.

As far as recognizing the Nationalist government, the League has taken the position that it cannot concern itself with the internal political situation in China.

TWO WOMEN KILLED TO HIDE OTHER MURDERS

ST. PAUL, July 7. (P)—Evidence has been found that the police announced today, definitely establishing that two women found slain yesterday were killed to cover up other murders in gang warfare here. This evidence discloses, police said, that Miss Anna Gravely and Mrs. Sadie Eddie Dunn, both 21, had been killed because one of them had indicated she had knowledge of some of the recent gang murders here. The two women were found shot to death in their apartment.

DETAILS WITHHELD ON CAPITAL MEETING

WASHINGTON, July 7. (P)—Representatives of financial institutions of England, France and Germany conferred with the Federal Reserve Board concerning international fiscal problems today, but none would reveal details of the meeting before their departure tonight for New York. Benjamin Strong, Governor of the Federal Reserve Bank of that city, it was said, will issue an explanatory statement tomorrow.

The visitors, Montagu G. Norman, governor of the Bank of England; Sir R. B. Stirling, deputy governor of the Bank of France, and Hjalmar Schacht, president of the German Reichsbank, were accompanied to New York by Gov. D. R. Crismer of the Federal Reserve Board.

Stabilization of foreign exchanges with the view of preventing adverse economic conditions, the world gold movement and working with the League of Nations were mentioned as having figured in the conversations. Acting Secretary Mills said the subjects discussed were surrounded with secrecy to prevent premature publication, and that they were "not directly Treasury matters."

Norman said the party had come to Washington on the brief tour of larger cities as a courtesy visit. Secretary Kellogg, said he went only to pay his respects.

In addition to the foreign bank heads, those who took part in the meeting were Paul Ricard, economist of the Bank of France; J. W. McInloch, Comptroller of the Currency; R. B. Warren of the foreign department of the New York Federal Reserve Bank; George L. Harrison, deputy governor, and A. C. Miller, George R. James, Charles S. Hammill and E. R. Cunningham, members of the Federal Reserve Board.

The steamer Crescent City, which went ashore four miles north of San Francisco, was waiting tonight for tug from San Francisco to pull it off the sand, where it has been resting all day. The vessel and men are reported to be safe.

The vessel is an 850-ton steamship operated between San Francisco, Santa Cruz and Monterey by the South Coast Steamship Company. She and her crew of twenty men were en route to San Francisco when it was reported by the secretary of the company.

NEW SCHEDULES CUT TRAIN-RUNNING TIME

CHICAGO, July 7. (P)—New schedules on the Chicago, Rock Island and Pacific Railroad, effective the 17th inst., will bring the Colorado Rockies two hours nearer Chicago and one hour nearer St. Louis.

The announcement was made yesterday by the Rock Island Limited out of Chicago and the Colorado Flyer out of St. Louis. The management also said the trains will be equipped with sprinklers to lay the dust over the western section of the line.

SEVERAL KILLED IN ARGENTINE WRECK

LOUISVILLE (Ky.) July 7. (P)—The Courier Journal reports that a group of Detroit men will attempt a flight to encircle the globe in fifteen days—half the time of the present record. The proposed flight would be made in the "Siamese monoplane" which is now sealing the national air tour.

CHILD SLAYER ELECTROCUTED

RICHMOND (Va.) July 7. (P)—Louis F. Boers, convicted of beating to death two small children at Alexandria last March, was electrocuted at the Virginia State penitentiary today.

MYSTERY VEILS BANKERS' AMBITIONS

Americans and Europeans Silent on Conferences

Gold Pact and Polish Credit Believed to be Topics

Statement Slated for Today on Capital Meeting

NEW YORK, July 7. (P)—Despite the thick veil of secrecy which surrounds the conferences being conducted by the executives of four of the largest central banks in the world, those of the United States, England, France and Germany, Wall-street bankers are of the belief that two important conclusions will be reached.

The prima donna was returned to the professor in charge of the show

FLEEING FLEA QUEEN CAPTURED

Ten Thousand Plebeians Garnished from Mangy Street Pups Offered in Her Place, But Gold Necklace Betrays Hop Off for Freedom

by more than 200 youngsters, who received 1 cent each, but the queen remained at large.

Today a San Francisco girl raised her hand to stop the dog, but noted a gold collar around the neck of the annoying insect. The queen was a gold necklace.

The prima donna was returned to the professor, the reward was paid, and billboards announced resumption of performances.

WEST COAST THEATRICAL HEARINGS ON

Proceedings Opened by Federal Trade Examiner at San Francisco

SAN FRANCISCO, July 7. (P)—Hearings to determine if West Coast Theaters, Inc., and affiliated interests are attempting to stifle competition in motion-picture production and distribution were begun today before Examiner John W. Bergman of the Federal Trade Commission.

The hearings are similar to those conducted in Southern California last week.

Defendants named in the action which prompted the federal investigation are West Coast Theaters, Inc., Herbert L. Rothchild Entertainments, Inc., & D. Junior Enterprises, Inc., Walter E. Langley. Complaints of smaller theaters and managers are being brought to those conducted in Southern California last week.

Defendants named in the action which prompted the federal investigation are West Coast Theaters, Inc., Herbert L. Rothchild Entertainments, Inc., & D. Junior Enterprises, Inc., Walter E. Langley.

It is understood that a "gentleman's agreement" has been reached by the bank heads not to talk for publication while the conference are being conducted.

After a pause today while the participants waited for the arrival of the examiner, the proceedings were resumed.

POLE FLIGHT ADVANCED

Byrd's Antarctic Dash Approved

Flyer Also Plans to Explore Brazilian Jungle and Arabian Desert

Crews of Two Planes Given Official Reception by City of Paris

PARIS, JULY 7. (AP)—Unaffected by the near-tragedy of his trans-Atlantic trip, Commander Richard E. Byrd already has consented tentatively to his exploration efforts over more spectacular areas than the South Pole.

The South Pole, Brazil's wide jungles and the Arabian desert are included in areas which will bear the thrum of his propellers, if the program of the America's skipper is followed.

The next seven or eight years would be devoted to these comprehensive schemes for aerial exploration of the less-known areas of the world.

Meanwhile Byrd and his companion flyers keep up unshaken the strenuous demands of public idols. To that they had turned at that place during the six days after their receptions in thousands of towns. They listened to thousands of words of praise from many tongues, cheers from tens of thousands of spectators and, along following their program they collected compliments and kisses, medals of bronze, silver and gold.

LEAVE SATURDAY

Tomorrow will be their last full day in Paris; they are leaving Saturday at noon for Dunkirk, and there will go to Le Havre, where they will make their way by plane to the Arctic.

First would come his trip to the South Pole, if the Navy Department gave its consent, with explorations in large sectors of the polar regions, then a series of stops in South America, Africa and Asia, following which he would return to the United States.

On the return flight he would call upon the principal cities along the coast of South America, and finally an expedition, possibly, to Arabia.

DEPARTURES

Already Commander Byrd has given much thought to his proposed flights. Having been over the North Pole, he will be anxious to find himself some day at the opposite end of the globe.

The people of Paris hailed the air concurring heroes of the airplane and Columbus and Columbus with truly French fervor this afternoon when the American airmen who crossed the Atlantic went to the Hotel De Ville to receive the official congratulations of the municipality.

The scene in front of the City Hall was packed with people as tightly as it was five weeks ago when Charles A. Lindbergh was received with the same ceremonial honors. This time he contemplated also a good-will flight around South America, and finally an expedition, possibly, to Arabia.

REMOVED BY REGENTS

Opposition to the first plank has been expressed by several delegates who said that Dr. Suzzallo was not as well qualified for University by an appointee of the regents.

Passage of the resolution, in the opinion of those opposed to it, would constitute "meddling in Washington politics."

In today's session the delegates cast their ballots for officers of the association. Miss Cornelia S. Adair of Richmond, Va., was named president; Henry Lester Smith of Bloomington, Ill., vice-president; and Dr. Francis G. Blair, retiring president, selected as first vice-president. All were unopposed.

Selection of the 1928 convention site with Milwaukee virtually unanimous in their progress toward new election.

The American flag with the tricolor flew from most of the buildings along the avenue where the aviators gathered in their progress toward new election.

The Americans will go home with Byrd, its motors in boxes, its clipped wings in crates. Many big and little strips of the plane remain forever in France, however, having made the most of the work when the historic monoplane was brought out of the water where it came down at Ver-sur-Mer last Friday morning.

Commander Byrd's prospective flight to the South Pole received an impetus by the information conveyed to the commander by the Associated Press that the American Secretary of Navy has no objection to such a flight. Prior to that, the commander of the America had taken time from his many engagements to tell a correspondent of the Associated Press of plans which he has in mind covering the next seven or eight years for ex-

EQUATOR FLIGHT PLAN NO RACE TO POLAR DASH

WASHINGTON, July 7. (AP)—The idea of a flight around the equatorial girdle of the globe by naval aviators recently was suggested to Secretary Wilmot, originated two years ago in the Bureau of Naval Aeronautics, he disclosed today.

At the same time Mr. Wilbur made it clear that he had meant to imply no objection to Commander Byrd's proposed South Polar flight when he suggested last week that the equator might be crossed.

While nothing definite regarding such a flight has been discussed with the bureau, which also is unprepared at this time to go into details, Mr. Wilbur believed that an experiment among the senior airmen would be practicable with the long cruising planes now available and would be of immense value from a scientific standpoint.

Referring to plans of Commander Byrd to fly to the South Pole in September, Mr. Wilbur said the attempt would be a hazardous one and added:

"It is difficult to see Commander Byrd risk his life, but if he proposes to go to the South Pole the Navy will intercede no objection."

Pointing out that Byrd, although a member of the active list, is on the active list and on leave, the Secretary said that the Navy has no intention to "clip his wings."

While recognizing the possibilities of such a flight, the Secretary did not say that the maneuver would be practicable with the long cruising planes now available and would be of immense value from a scientific standpoint.

Referring to plans of Commander Byrd to fly to the South Pole in September, Mr. Wilbur said the attempt would be a hazardous one and added:

"It is difficult to see Commander Byrd risk his life, but if he proposes to go to the South Pole the Navy will intercede no objection."

EVERY FIFTH PERSON HAS AUTOMOBILE

Of All Cars in World, 95 Per Cent of American Origin: 27,650,267 in Use

WASHINGTON, July 7. (AP)—The United States has one automobile in operation for each five of its citizens, the automobile division of the Department of Commerce announced today, basing its figures on a recent survey.

Statistics for the world as a whole showed 27,650,267 machines in operation at the beginning of the year, or one for each sixty-six of population.

In Canada and Hawaii, there is one machine to each eleven of population, while New Zealand has one to twenty-four, Australia and Tasmania one to forty-three; Argentina, one to forty-five, and France, one to forty-six.

It was estimated that 95 per cent of all the automobiles operated in the world are of American origin, though a considerable proportion of them were assembled in foreign branches of American factories.

SLAYERS PIN NOTE ON VICTIM'S BODY

ROCKVILLE (Md.), July 7. (AP)—Edward L. Mills, a prosperous dairy farmer, was murdered today by a stranger, who took time to pin a note to the body before escaping. The paper was written in the name of a possible conspirator, interested for Mills' signature to the effect that he had been friendly with a married woman. The note contained no names and police are of the opinion that the slayer was a maniac.

LEVI'S COUP BLOW TO FRENCH AVIATION

PARIS, July 7. (Exclusive)—Charles A. Levine's coup in signing up the only French company to the contract to fly to the Orient in the 1928 round-the-world race has aroused widespread interest among residents and tourists now in the islands. The Honolulu office, Mr. Cullen said, is reporting active bookings.

Since May, 1924, the volcano

has been inactive and it is expected that the present disturbance is dangerous to human life and property, those who live in Hawaii and who are able to reach Kilauea will be perchance the greatest sight in the world.

To him who knows Hawaii, Mme. Pele is putting on a wonderful show and front seats to the attraction will be at a premium.

TOURISTS NOW IN HONOLULU PREPARE TO SEE VOLCANO

According to advices received yesterday by R. A. Cullen, general passenger agent for the Los Angeles Steamship Company, from the company's Honolulu office, the eruption of the volcano Kilauea has aroused widespread interest among residents and tourists now in the islands. The Honolulu office, Mr. Cullen said, is reporting active bookings.

NEGO FOUND HANGED

YAZOO CITY (Miss.), July 7. (AP)—The bullet-riddled body of Joe Smith, negro, who was found hanging from a tree on a young white girl near here, was today found hanging from a tree about seventeen miles from town.

The negro was smothered under the veiled criticism of his intent to snatch the honor for himself, at the same time knocking the French planes into a cockpit.

AMERICAN BLUEJACKETS TO LAND AT TSING-TAO

Consuls Agree to Move as Safeguard for Foreigners Periled by Revolt

(Copyright, 1927, by Chicago Tribune)

SHANGHAI, July 7. (Exclusive)—After a conference of American, British and German consuls at Tsing-tao an agreement has been reached whereby the United States will send American bluejackets to Tsing-tao immediately, according to advice from Tokio. Tsing-tao, in Shantung Province, now is the critical point in the Chinese internal war.

The American bluejackets will be sent to Tsing-tao except for a small number who are believed here to be "standard," and in this he was a Detroit delegate who was to other than Tsing-tao or Chinkiang.

Mr. May said: "The girls are the young women tempt the boys to render assistance."

Several girl students came to the cases cited were isolated and the general run of girls is not of the influence type."

Representative Hudson, during a meeting, added that he did not know that during his period of existence, he had been made to conditions described by young people.

"Any keys young people to a greater intensity and is the dominant factor in the situation," he said. "Now it is known, for American girls over a few days ago, problems, told delegates to eliminate the prejudices of the Chinese toward another was the best step for the Young People if it would do away with me."

British naval strength is concentrated under the northern command of Sun-Chuan-Pang, who is making a large force to crush the rebellion.

In the present circumstances, he said, Japan's only alternative was to keep in touch with the moderate elements, but she must protect her nationals if the Chinese were unable to do so.

He also emphasized the necessity of taking all steps necessary to preserve peace in Manchuria and Mongolia, owing to the bearing of the Japanese decision to the interior to seize

AMERICAN GOLD

America's huge accumulation of gold, or about half the entire world's visible gold, has been a source of concern to bankers throughout the world. In the United States fears have been felt that at some future time it might be used as a basis for another financial panic, while foreign bankers have raised the possibility of such an amount of gold as a potential menace to the world's financial stability.

Great Britain also has expressed concern over the recent accumulation of foreign exchange bills by the Bank of France and the French withdrawal of gold from London. Major C. W. Norman, governor of the Bank of England, has agreed to an arrangement between the banks of England and France to regulate the flow of gold between the two capitals.

As part of this plan, it is understood that the British will be asked to obtain a modification of the present restrictions against the flotation of loans here. France and other countries have not yet funded their war debt to this country.

SUGGESTIONS REPORTED

Suggestions that the gold reserves of the New York Federal Reserve Bank be deposited with the Bank of England, Bank of France and other European banks of issue also are understood to have come within the scope of the conference.

The credit to the Bank of Poland is understood to be along the lines of the one granted to the National Bank of Belgium by the central bank of France. It probably is the stabilization of the Polish zloty, and it may be contingent on the completion of the loan to the Polish government estimated at from \$60,000,000 to \$70,000,000. This is expected to follow the expiration of the \$15,000,000 credit recently arranged with a New York banking syndicate.

While no political motive is admitted, some bankers and others regard it as an offset to Russian economic influence in Poland.

Louis Frank, governor of the National Bank of Belgium, has reported about the middle of the month, but it is not believed that he will arrive in time to participate in the conference.

DETALS WITHHELD

WASHINGTON, July 7. (P)—Representatives of financial institutions of England, France and Germany conferred with Federal Reserve Board officials in international fiscal problems today, but nothing was disclosed concerning the negotiations before their departure tonight for New York. Benjamin Strong, Governor of the Federal Reserve Bank of that city, was said, will issue an explanatory statement tomorrow.

The visitors, Montagu C. Norman, governor of the Bank of England; Charles Rist, deputy governor of the Bank of France, and chairman of the French National Bank, were accompanied to New York by Gov. R. Crisinger of the reserve board.

Stabilization of foreign exchange with the view of preventing adverse economic conditions, the world gold movement, and workings of the Dawes plan were understood to have figured in the conversations. Acting Secretary of State Kellogg, who was surrounded with secrecy to prevent premature publication and adduced only that they were "not directly Treasury matters."

Norman said his party had come to Washington on its brief tour of larger cities as a courtesy visit, while Rist, who called on Secretary Kellogg, said he went only to pay his respects.

In addition to the foreign bank heads, those who took part in the discussions today were Paul Ricard, economist of the Bank of France; W. M. Mitchell, Comptroller of the Currency; E. W. White of the Bureau of the New York Federal Reserve Bank; George L. Hartman, deputy governor, and A. C. Miller, George C. Crisinger, Charles G. Hammill, E. H. Cunningham, members of the Federal Reserve Board.

Assistant Secretaries of the Treasury Schuman and Lowman attended a luncheon given by Gov. Crisinger for the party.

MYSTERY VEILS BANKERS' AIMS

Americans and Europeans Silent on Conferences

Gold Pact and Polish Credit Believed to be Topics

Statement Slated for Today on Capital Meeting

NEW YORK, July 7. (P)—Despite the thick veil of secrecy which surrounds the conferences being conducted by the executives of four of the largest central banks in the world, those of the United States, England, France and Germany, Wall-street bankers are of the belief that two important conclusions will be reached. These are, first, an agreement understanding of some kind regarding the flow of gold among financial centers of the world; second, a credit of \$20,000,000 to the Bank of Poland to be participated in by the New York Federal Reserve Bank and the European banks of issue.

Seldom in recent Wall street history has such secrecy and mystery surrounded an important gathering.

Officially, the New York Federal Reserve Bank and the conferences represent merely the annual "exchange of views" by bank heads, which formerly took place in London or Paris, but which has been transferred to America this year because of the inability of Benjamin Strong, governor of the New York Federal Reserve Bank, to make the trip to Europe because of his recent illness.

After a pause today when the participants visited Washington, the meetings will be resumed tomorrow.

It is understood that a "gentleman's agreement" has been reached by the bank heads, and a talk for publication while the conferences are being conducted.

AMERICAN GOLD

America's huge accumulation of gold, or about half the entire world's visible gold, has been a source of concern to bankers throughout the world. In the United States fears have been

France and other countries are being conducted.

PEKING OBSERVER TO QUOTE POST

GENEVA, July 7. (P)—Chu Chao-Hsin, who has been representing the Peking government on the Council of the League of Nations, today informed the League that the secretary-general, that he intended to return to China and to become politically active.

Inasmuch as the League deals officially only with the Peking government, Chu said he would wait to accept whenever the Peking government should appoint in Chu's stead.

Chu's abandonment of his post has created a considerable stir in League circles since his action leaves China without a representative on the Council to which it was given a seat at the last session of the League Assembly.

It is assumed that Chu will enter the service of the Nationalist government. He is a personal friend of Dr. C. C. Wu, the Nanking Foreign Minister, and Gen. Chiang Kai-Shek, the Nanking military leader. Only recently he assumed responsibility in the name of the Nationalists stating that China would not accept any decisions that might be taken at the Geneva tripartite naval conference as regards the situation in the Pacific unless they were fully supported.

As far as recognizing the Nationalists is concerned, the League has taken the position that it cannot concern itself with the internal political situation in China.

TWO WOMEN KILLED TO HIDE OTHER MURDERS

ST. PAUL, July 7. (P)—Evidence has been found, the police announced today, definitely establishing that two women found slain here yesterday were killed to cover up other murders in gun warfare here.

Miss Anna Greenville and Mrs. Eddie Bell (Teddy) Dubois were murdered because one of them had knowledge of some of the recent murders here, it was found.

SHEFFIELD AND COOLIDGE MEET**Result of Conference on Mexico Withheld****Ambassador Indicates No Change of Policy****President Given Fancy Pipe at Indian School**

RAPID CITY (S. D.) July 7. (P)—A first-hand report on the troubled relations between the United States and Mexico, was given to President Coolidge at the summer White House today by James R. Sheffield, Ambassador to Mexico, but details were withheld pending further conversations.

The Ambassador had indicated before departing from Rapid City to be a guest at the State Game Lodge, that in his opinion there would be no change in the American attitude toward the Mexican oil and land laws.

Pressed for a statement regarding frequent rumors that he intended to resign, Sheffield declined to comment, saying that he would not discuss the Mexican situation in any way until he had conferred with Mr. Coolidge.

ARRIVES LATE

Reaching Rapid City shortly after midnight, the Ambassador was driven immediately to the summer White House and waited without calling for him. He arrived just before Mr. Coolidge left for the executive offices, remaining in seclusion until the President's return at noon, when the two held their first conference.

At the executive offices, it was agreed that some time before Mr. Sheffield's visit is over he will make some announcement regarding his future plans and his impressions of the Mexican problem.

Arrived from his conference with the Ambassador, the first on foreign affairs he has had since reaching his summer residence, Mr. Coolidge put in a busy morning at his desk, and with Mrs. Coolidge inspected the Rapid City Public Schools, a government institution.

There he saw how the Native American is being tutored in the ways of the white man and was presented with a peace pipe of cherry wood, decorated with beads, porcupine quills and buckskins.

ACCEPTS WITH SMILE

J. T. Cushing, who made the pipe, told the President to smoke it and think of the Black Hills Indians when he did. Mr. Coolidge accepted it with a smile, noted how the old life was still in the Indian, and said that the pipe was a good imitation of the Indian flag which shared in the pipe's decoration with Native Indian designs.

Mrs. Coolidge was presented with a hand-embroidered pillow by Mrs. Mrs. Sibley Thorpe.

At the Indian school the President and Mrs. Coolidge heard a copper-skinned lad extol the merits of the Republican party during the Civil War and new exhibits of Indian dances and songs. Both applauded generously when a tiny Indian in full native dress danced a war dance with Charleston variations.

"With my best wishes, always," "Sincerely,"

GRACE COOLIDGE.**Diploma Mill Witness Tells of Fund Split**

NEW HAVEN (Ct.) July 7. (P)—A loan of \$400 to \$500,000 was divided among 50-50 basis between Dean Waldo Briggs of the St. Louis College of Physicians and Surgeons, and Dr. Robert Adams for the activities of Adcox in procuring students for the medical school. Dr. Adams testified today that the hearing of the appeals of seven eclectic doctors against the revocation of their licenses to practice in Connecticut.

Adcox, in his efforts in obtaining students and practising for them, without examination, entrance credentials from county superintendents or education in Missouri, Illinois and Indiana, and from Dr. William J. K. Adams. Dr. Adams mentioned today the outright sale of diplomas of the St. Louis college and the Pacific Medical College of Los Angeles.

The Pacific Medical College of Los Angeles went out of existence in 1918, according to the State Board of Medical Examiners. It had become defunct officially in 1918.

Assorted Race-Track Swindler Gang Leader Lodged in Jail

CLEVELAND, July 7. (P)—Thomas Beech, accused of being head of a gang of race-track swindlers that mislaid thousands of dollars from wealthy persons vacationing in Florida a few years ago, was in jail here today following his guilty plea of using force to demand payment.

With him in jail on the same charge was A. W. Duff, while a third member of the gang, still at large, is Jack French.

The trio is accused of attempting to swindle Albert Seurin, former resident of this city and Toledo and now living at St. Petersburg, Fla.

ALIBI IN FLOGGING CASE

Georgia School Head Declares He Was Doctoring Cow at Time of Attack on Woman

TOCCOA (Ga.) July 7. (P)—W. G. Acree, principal of the Stephens County High School, was at a farmer's house seven miles in the country doctoring a sick cow on the night a band of robed and masked men flogged Mrs. Ansley Bowers and her 18-year-old son, witnesses testified today at his trial on charges of assault with intent to murder.

Mrs. Bowers and her son had testified they positively recognized Acree among their assailants, but witnesses called by the defense in support of its defense of an alibi, told the jury the schoolmaster could not have been in the flogging party because he was at the home of M. B. Looney, who, it is alleged, ran a vice den at Toccoa.

Acree, held Acree on the streets and took him out to administer medicine to the flogging cow.

Looney took the student to describe the trip, saying he was accompanied by Mrs. Jordan and Bert Lowry, the latter two under indictment in connection with the flogging of Bartie Singleton, a farmer. They picked up Acree and went to the home of Mrs. Looney.

Looney and Mrs. Jordan, under cross-examination, admitted they had worn robes on occasions and said they had seen Acree wearing them.

Loyd, son of Mrs. Bowers, took the stand and said he would not discuss the Mexican situation in any way until he had conferred with Mr. Coolidge.

ALIMONY CLUB ADVISES WIVES

Keep Away from Lawyers, It Strongly Urges

Don't Take Children, Money, Furniture and Flee

Other Suggestions Offered to Preserve Home

NEW YORK (N. Y.) July 7. (P)—Just when it seemed that all sets of ten commandments for husbands and wives have been published, New York's Alimony Club came along today with its own list and opened the question once more of "How to Be Happy. Though Married."

But the Alimony Payers' Protective Association, most of whose members are in jail for nonpayment of it, feels wives need other advice. Through its secretary, Robert G. Eob, the club has issued ten suggestions.

"They're not commandments or rules," said Eob smidly, "because you can't command or rule a woman."

The list follows:

"(1) Keep away from lawyers. They make bitter enemies of your husbands. They make profits and cause trouble."

"(2) Do not have your husband arrested. If he will not give himself voluntarily after arrest and will have nothing to do with you if he can avoid it."

"(3) Avoid making your husband jealous."

"(4) Keep the in-laws subdued, or at least in the background."

"(5) Do not run off with the children, move the furniture out, and take all the money you can lay your hands on. Your husband is sure to demand such treatment."

"(6) Do not prevent your husband from seeing the children. It precludes the possibility of any reconciliation."

"(7) Do not shirk your duty. Because you are married does not mean you can fold your hands in idleness the rest of your life."

"(8) Give your husband every opportunity to succeed."

"(9) Do not attempt to procure legal separation, thinking you will be better off."

"(10) Do not kill the geese that lays the golden egg. Your husband isn't stupid at anything without your active co-operation."

Wood for War Department's Rule in Islands

SACRAMENTO, July 7. (P)—Allocations totaling \$166,000 for highway work by convicts at California's three prison road camps were voted today by the State Highway Commission.

Included in these allotments are \$70,000 for construction work between Crescent City and Adams Station, Del Norte county, a distance of 12 miles; \$20,000 for the continuation of work on the Mariposa-Bridgeburg section of the Yosemite all-year road until December 31, past, and \$46,000 for the continuance of the Union-Pacific-Tahoe-Ukiah route in Lake county.

In addition, contracts for work representing an expenditure of \$55,000 were awarded, and numerous unassigned jobs authorized.

Among the projects ordered were: San Bernardino county: Bridge across Santa Ana River and Warm Creek.

San Barbara county: Bridge across Cuyama laterals.

San Diego county: Riprap and bank protection along banks of Pine Valley, La Posta and Cottonwood creeks.

Los Angeles county: Widening and reducing curves on Ridge Route from Lister maintenance station to a point three miles north of Sandberg here.

CAFE OWNER LEFT ESTATE OF \$5,000,000

WAUKEGAN (Ill.) July 7. (P)—The estate of John H. Thompson, restaurant owner, was disclosed today to be worth \$5,000,000 in real estate, \$1,000,000 in personalty and \$750,000 in real estate when the will was filed in Probate Court here.

**MADE FOR
KILLER HERE****CARNIVAL OF WHALES SEEN**

NEW YORK. July 7. (Exclusive)—This is a whale of a story, but it was told today by Capt. W. W. Clark of the Munsen liner Munroiana. He had just arrived with passengers and cargo from Miami and Nassau, Bahama Islands. Here is his account:

"We sailed from New York June 24. Seventy miles south of Cape Hatteras we encountered so many enormous whales that we had constantly to slow our speed and shift our course to avoid running into them. The cetaceans were so numerous that we completely under the vessel. We felt the impact of his back against the keel of the 6000-ton ship."

The birds in varied multitude, attracted, no doubt, by the strange and numerous and mixed gathering of water life, kept diving in the sea.

Frequently we could see fish snap back at the birds, which sought to make them their prey.

**NEW WIFE
APPEARS AS
FIRST DIES**

**"Other Woman" Asserts
Marriage After Drowning;
Mechanic Denies Story**

SACRAMENTO. July 7. (UPI)—Although the investigation into the recent drowning of a woman identified by Jack Francis, an automobile mechanic, as his wife, Mrs. Louise Francis, has failed to develop any evidence of foul play, it has brought out that Francis' "other woman" was supporting two households.

Dep. Dist.-Atty. Horace Frye, who has been conducting the inquiry, intimated today that unless something more convincing comes along, the investigation will be dropped and Francis released from the City Jail, where he is being held.

Det. McKinney and Lohmen returned late yesterday from Rialto, where they had been investigating the "legal wife" of Francis. Frye and the two officers questioned the Hanford woman for more than an hour and she maintained throughout the interview that she was never married to Francis. She denied knowledge of Francis having a living wife at the time of their marriage, asserting that he had informed her that he had been married before, but that his wife died.

These assertions were denied. McKinney said, by Francis. The mechanic did not deny living with the Hanford woman in both Sacramento and Fresno, but maintained that no marriage ceremony was ever performed.

**Moffat Tunnel
Railroad Bore
Holed Through**

DENVER. July 7. (UPI)—The railroad bore of the Moffat tunnel was holed through this afternoon. When workers went into the tunnel for the daylight shift, today only sixteen feet of granite separated east from west. Muckers attacked a four-foot wall of rock. The first blow was struck when that was cut out of the way they dug into the last barrier, eleven feet thick. Meanwhile other tunnel workers were advancing the benches on both sides of the tunnel.

The work was completed on September 1923. Holing through of the railroad tunnel was accomplished thirteen days before the expiration of the contract. The railroad bore will be ready for operation of trains within a few months.

WOMEN SCARED

Women cringed to a come with information and of another supposed woman.

Another revealed last

Friday, 14 years from her

and was released from parole.

It is unknown if no police

and started search for

the car, unbroken window

and a policeman, at 7:25

Monday. The man was

BYRD says—

"They never missed a pop"

(NOVILLE in Associated Press Dispatch)

Through 42 hours of navigation unparalleled in the history of aviation, the three great Wright Whirlwind Motors of the "America," directed by gallant Commander Byrd and his brave crew, functioned perfectly, using Pacific Coast oil and Pacific Coast gasoline.

In addition to the fine tribute to Zerolene Aero Oil and Red Crown Aviation Gasoline from Commander Byrd, shown in the cablegram above—here is what these four heroic airmen, in their personal stories of the flight, have to tell you about their engines, operating on these two splendid motor products:

BYRD (the captain) said: "One thing stands out about the flight, and that was the behavior of our motors. They worked perfectly all the time and never once showed the slightest error or failure."

(New York Times Copyright Dispatch)

NOVILLE (the engineer) said: "All three motors of the 'America' functioned perfectly throughout the flight, humming continuously from the take-off at Roosevelt Field until the landing off the beach here. They never missed a pop."

(Associated Press Dispatch)

ACOSTA (pilot) said: "Our three engines worked with marvelous regularity, never giving us a moment's nervousness, and, after weathering the Atlantic in one of its worst moods, the final stages of the flight seemed like child's play."

(Hearst Newspapers Copyright Dispatch)

BALCHEN (pilot) said: "I had all my tools right handy so as to be able to climb out on the wings at the first sign of motor trouble. But those three motors behaved themselves. They hummed right along."

(New York Times Copyright Dispatch)

♦ ♦ ♦
Like Lindbergh, Maitland and Hegenberger, who flew with Red Crown Aviation Gasoline, Commander Byrd came to the Standard Oil Company of California for products upon which he could rely to the utmost. He purchased Zerolene Aero Oil for sure lubrication, and Red Crown Aviation Gasoline for unfailing power.

The Zerolene and Red Crown you buy at Standard Oil Service Stations and dealers will do for your automobile all that Standard Oil products did for Byrd and the "America," for Lindbergh, and for Maitland and Hegenberger—you will find the same unfailing power and dependability.

PIGGY WIGGLY SALES MOUNT

Western Company Average \$1,000,000 Monthly

Aggregate for Half-Year Just Closed \$6,502,697.93

Eighty-two Per Cent Increase Shown by Figures

Averaging better than \$1,000,000 a month, sales of the Piggly Wiggly Western States Company for the six months ended June 30, last, exceeded the total for the corresponding period of last year by 82 per cent, according to figures issued by the company yesterday.

For the half-year period just closed, sales aggregated \$6,502,697.93, as compared with \$3,561,721.92 for the same six months of 1926, an increase of \$2,940,976.01, or 82 per cent. Sales in the second quarter totaled \$3,391,459.33, as against \$1,776,687.58 for the same period last year, a gain of \$1,614,772.35, or 90 per cent.

JUNE COMPARISONS

Sales for the month of June last amounted to \$1,150,000.38, an increase of \$357,548.87, or 39.95 per cent over the total sales of \$800,000 in June, 1926. June sales were also greater by \$71,584.17, or nearly 7 per cent than May sales were.

The company reports that at the close of June it was operating 161 stores throughout this territory. Forty-eight new stores have been added since the first of the current year, thirteen of which were opened in the second.

Shares of the Piggly Wiggly Western States Company were recently listed on the Los Angeles Stock Exchange. The stock came on the board at 21 1/2 and since then has sold up to 23 3/4 and closed yesterday at 23 1/4.

HOOLDING CORPORATION

The Piggly Wiggly Corporation, which holds the franchise and patent rights under which the Piggly Wiggly Western States Company operates, yesterday reported sales of the more than 2,600 self-service grocery stores using its name totaling \$14,000,000 for the month of June, as against \$11,400,731 in May, 1926. For the six months, this year sales totaled \$74,622,903, as compared with \$64,364,809 in the same period last year.

The Piggly Wiggly Corporation reported a 50 per cent increase of the gross sales of all self-service grocery stores using the "Piggly Wiggly" trade name. On this basis the corporation received more than \$23,000 from the Piggly Wiggly Western States Company during the first six months of this year.

STEEL ORDERS ESTIMATED

NEW YORK, July 7. (AP)—Total structural steel orders for the last week were estimated at \$40,000,000, while last week's total was \$26,000 two weeks ago. American Bridge took more than half of the week's total. New inquiries are placed at 20,000 tons.

Retail Trade Better, With Profits Firm

Business continues satisfactory for this season of the year, stated the Bradstreet company in its weekly review of conditions in Los Angeles territory. Retail trade is in general very keen competition, and while sales show increases over last year net profits remain about the same. Railroads and automobile-stage lines report very good business with hotel and restaurant filled the railroads and districts. Motor hotels are doing a capacity business. Home building is very active with the great activities in the Beverly Hills section. A large number of individual projects have also been started since the 1st inst. Building-materials trades are reflecting these favorable conditions.

Electric refrigerating plants report very good business for home refrigerator users. Orders in some cases exceeding supply. Crude-oil production is steady with summer demands heavy. The retail price of gasoline advanced a cent during the past week.

LAMONT BOOSTS PUBLICITY

Morgan Partner Cites Benefits to Corporations of Liberal Information on Affairs

BY EARL E. CROWE

Thomas W. Lamont, member of the famous house of Morgan, contributes some interesting observations on the value of publicity to business corporations, writing in the current issue of Industrial Management. Perhaps his central idea may surprise some of the older school of executives.

His contention is that a policy of liberal dissemination of information concerning corporate affairs is a business proposition calculated to yield a real profit in good times and bad.

Corporations are coming to this way of thinking in increasing numbers. Most of them, it is regrettable to say, are converted after disastrous experiences with an unfriendly public and unscrupulous politicians. In such trying times the main advantage of publicity is the need of an informed and friendly public.

The obvious course is then adopted, but it takes time to build up a following. It is not to be expected where it will take dividends in good will.

UNITED STATES STEEL PIONEER

Mr. Lamont narrates the story of one corporation that started out on this policy of giving stockholders and the public more information on earnings and operations than was ever published. Mr. Morgan and Judge Gary decided, in 1901, when the United States Steel Corporation was founded, that the policy of frankness with the public would help the corporation to attain its full growth and strength. Secrecy was abandoned and more information released than the Association of Manufacturers is 4 per cent less than a year ago. At this rate of consumption, the June output of bituminous coal was large enough to take care of more than 90 per cent of current demand.

OIL SHARES OFF; PUBLIC UTILITIES UP

Edison Issues All Gain; Los Angeles Gas Preferred at New Record High

LINE DRAWN

The trend of prices on the Los Angeles Stock Exchange yesterday was mixed, with oil stocks showing renewed weakness and utility shares regaining strength. Bank and mining issues were irregular.

SELLERS LOAN FACTOR

Mr. Lamont narrates the story of one corporation that started out on this policy of giving stockholders and the public more information on earnings and operations than was ever published. Mr. Morgan and Judge Gary decided, in 1901, when the United States Steel Corporation was founded, that the policy of frankness with the public would help the corporation to attain its full growth and strength. Secrecy was abandoned and more information released than the Association of Manufacturers is 4 per cent less than a year ago. At this rate of consumption, the June output of bituminous coal was large enough to take care of more than 90 per cent of current demand.

No. 8

(1) In what place was California's first newspaper published?

(2) How much is customarily deposited on a buyer's or seller's option?

(3) Who is the president of the Electric Bond and Share Company?

(4) What Yale professor is known as the leading advocate of the standardization of weights and measures?

(5) What is the function of the registrar for corporations?

(6) Are bond prices now above or below the levels of twenty-five years ago?

PREFERRED OF REAL ESTATE CONCERN OUT

Hollywood and Valley Officers of Bank of Italy to Confer

GLENDALE, Calif., July 7. (Exclusive)—

Officials of twelve banks, members of the Bank of Italy organization in Hollywood and the San Fernando Valley, will hold a business conference in Glendale on Saturday, following dinner at the Oakmont Country Club at night.

The visitors will include members of the advisory board of the Bank of Italy and officials of the banks in the San Fernando Valley districts from as far north as Saugus who have been invited to attend.

It is the purpose of the conference to knit the bank's branches closer through a better understanding of business and financial conditions, according to G. W. Johnson, president of the Bank of Italy branch which is in charge of the program. Thirty-five bankers will attend the conference.

EQUITABLE BUILDING EARNINGS REPORTED

NEW YORK, July 7. (AP)—Earnings of the Equitable Building Corporation were the largest since space of an office building in New York City, are estimated at \$1,820,000 for the current fiscal year. This is equivalent to more than \$8 a share on the common stock, which currently has a market value of \$100 a share.

The company has had a sharp decline in earnings over the last two years, but the latest figures show a marked improvement.

STRENGTH SHOWN BY WILLY'S STATEMENT

NEW YORK, July 7. (AP)—David F. Houston, recently elected president of Mutual Life Insurance Company of New York, has been elected a director of International Harvester. According to the new statement of G. W. Johnson, president of the company, the new director is the son of Charles E. Price, former president of the United States Rubber Company.

Mr. Houston is a member of a number of railroad companies, it is known, and is the individual owner of rail stocks.

SHOULD BOND BUYERS BE ALARMED?

NEW YORK, July 7. (AP)—Construction of the Club Aluminum Universal Company at \$33 a share. This company has the distinction of being entirely out of earnings in four years past, and net assets are less than \$100,000.

Gross sales of the corporation for the year ended June 30, last, were approximately \$5,700,000, with net earnings of \$50,000 after taxes, equivalent to \$1.33 a share on the preferred stock.

The Hollywood-Rosewood Property Corporation is merging a thirty-acre tract leased by Hollywood and Orange Drive, with ownership and management of four leading apartment buildings in Hollywood. The purpose of the preferred stock is to remove all obligations against the properties and provide working capital.

STRENGTH SHOWN BY WILLY'S STATEMENT

NEW YORK, July 7. (AP)—Willy's Statement reported as having \$15,000,000 cash on hand.

TOLEDO (O.) July 7. (Exclusive)—A statement just authorized by John H. Willys, president of Willys-Overland, Inc., shows the company to be in a strong cash position.

On June 30, last, the company showed more than \$15,000,000 cash on hand, an amount equivalent to the outstanding preferred stock, which totals \$17,500,000.

This liquid position of the company in the face of the steady policy of expansion and cost reduction and the result of careful supervision of the inventory, he said. The company will retire \$10,000,000 in outstanding bonds on September 1, next, and provision has been made for the retirement of \$74,835.12 of preferred stock at the end of the current month.

Sales of the company for the first half of 1927, including the cover and Willows-Kingsley, Toledo and Coverdale, and export business, totaled 124,501 cars, a 30 per cent increase over last year for the same period.

PRICE OF LEAD REDUCED

NEW YORK, July 7. (AP)—The Houghtaling and Company today reduced the price of lead from \$3.00 to \$2.80 cents per pound.

ST. PAUL NET ESTIMATED

Hearings on Receivership Dismissal Bring Prediction of Prosperity in Five Years; Plan Opposed

WASHINGTON, July 7. (AP)—Financial aspects of the plan for taking the Chicago, Milwaukee and St. Paul Railroad out of receivership were commented today at hearings by the Interstate Commerce Commission. W. K. Sparrow, chief fiscal officer for the receivers in charge of the property estimated that its earnings outlook for the next five years is sufficiently good to justify the issue of securities contemplated, and W. W. Colpitts, an expert engineer on railroad valuation, a new corporation for the Chicago, Milwaukee and St. Paul, proposed to the commission for permission to take over all of the railroad's assets and liabilities, and to issue new securities in exchange for the stocks and bonds of the old company.

Mr. Colpitts explained that the new corporation would be faced with bond interest obligations amounting to \$14,000,000 annually, but that its present earnings would be adequate to meet this claim. He pointed out that a majority of the new company's bonds would bear an interest coupon payable only in case the railroad earned the money necessary, and expressed the opinion that this procedure would protect its ability completely.

Mr. Sparrow estimated that in the first year after reorganization, the Milwaukee system would earn a gross

KRELL PENN ELECTRIC EARNINGS INCREASE

NEW YORK, July 7. (AP)—Gross earnings of West Penn Electric for the year ended May 31, last, were \$3,189,000 larger than the preceding twelve months, reaching \$35,819,827. There was \$5,054,454 for dividends on the preferred and Class A stocks, an increase of \$1,164,328.

KRELL SALES UP

NEW YORK, July 7. (AP)—Sales of S. H. Kress & Co. for the half-year ended June 30, 1927, were \$2,500,000 from \$2,000,000 in the first half of 1926. June sales were nearly 8 per cent ahead of June last year.

Many Stocks Hit New High Levels in Early Trading
Break Started by Bear on Dodge Issues
Credit Conditions Considerably Easy

ALL STREET PARAGRAPHS
Market Indications Point to New Record High Levels

MARKETS AT A GLANCE
NEW YORK, July 7. (P.M.—Stocks rose; bonds steady; new record high levels in foreign exchanges noted; special issues and railroads up; cotton very favorable weather; coffee steady; better financial marks.)

CHICAGO, July 7. (P.M.—Wheat firm; corn the one chart as a strong indicator of the stock market; oil companies destined to enter new fields between now and the end of the month; in that connection, the fact that while some of the oil companies who are after popular accessories to be added to their new models as selling features. This theory, however, was scuttled by bankers close to the company. They pointed out that the company has just closed the most profitable six months in its history with business on hand sufficient to insure a good gain in this quarter over the same period last year. With the advance of the last two months there has brought a return to the market's top. It is no longer necessary for the market to move higher than the top, and the advance of the last two months has been for the market to move higher than the top. The market is now at a standstill, and the old peak has been exceeded.)

RUST REPORTS LEAD TO HIGHER LEVEL IN WHEAT
Chicago, July 7. (Exclusive)—Black rust is being found to enter the red or black stage from Wisconsin south to Kentucky and Tennessee. Hail damage is reported on the rust reports to have been responsible for a higher price of wheat. The market is firm.

July 10, 1927, Report No. 1414-6-144 and December 1414-6-145. R. O. Cawell, the Laramie Bros. & Co. crop expert, found a trace of rust in the red stage from Wisconsin southward, and said that according to the stage of plant this is the earliest rust appearance in ten years, but considering calendar date the appearance is normal. Condition is good, and the market is well ideal for rust development.

Corn was affected by the strength in wheat and by aggressive buying by local professionals and closed 15@16¢ higher, with July leading. Later, 16¢ at the last, with September 15@16¢ and October 15@16¢. Cotton was 11@12¢ higher, December 11@12¢, and with July 11@12¢. September 11@12¢ higher and December 12¢. May rose 11@12¢ and December 11@12¢.

Oil companies which showed pronounced strength, with July leading and closed 15@16¢ higher, and the return to the market had considerable influence here with leading local professionals discussing the front on the rear report, and with the market 16¢ higher. The market is now at a standstill, and the old peak has been exceeded.)

TULSA (Okla.) July 7. (P.M.—After holding its daily gauges at around 431,000 barrels for five consecutive days, the Greater Seminole Oil Field reached a new high peak for all time, 442,047 barrels, at 7 a.m. today when 573 wells flared.

This is the highest peak ever recorded in the history of the industry.

Credit conditions continued to improve, as banks are holding steady at the top, with funds in plentiful supply.

(Continued on Page 12, Column 2)

SEMINOLE OUTPUT AT NEW HIGH PEAK

NEW YORK, July 7. (P.M.—Wheat rose 16¢ after closing at the top, with a new record high level of 80¢. Corn was 15@16¢ higher, and the market checked a prominent rise in the last hour. Many stocks hit new high levels in early trading.

NEW YORK BOND PRICES

NEW YORK, July 7. (P)—Improvement in bond prices became more marked today and buying spread over a wide variety of issues. Dissolution of syndicates which have been supporting certain new bonds has resulted in lower prices in many instances, but the conditions are not money conditions and the tremendous July reinvestment demand has tended to restore confidence in the market's position.

While buying was not greatly increased over yesterday's volume, prices appeared to respond with greater ease. Several large fractional gains in high grade railway issues were noticed, with Missouri, Kansas, Texas and Illinois leading the way. Erie refunding was active but late in the day lost a fair-sized gain. Chicago and Eastern Illinois 8s rose to a new high and there was further accumulation of Class A stocks.

Convalescent railway issues were irregular. Erie "D" 4s advancing about a point, while Delaware & Hudson declined as much.

An unusual situation arose in Godfrey, Ill., in which traders who sold short for seven-day delivery a week ago were caught in a position where they were forced to pay 97 cents for immediate delivery, or, around the time the issue was last week.

Foreign issues were firm with fair demand for French and Belgian obligations. German Agricultural Bank 7s sold up a point in anticipation of a \$30,000,000 new issue expected to be offered at an attractive price.

Government securities were mixed with principal activity centered in some of the Liberty bonds.

The quotations represent sales of bonds in thousands of dollars. To facilitate transmission, close is omitted when one or less, and plus or minus when more than one.

Death Threats Sent Dr. Parrish in Sleeping-Woman Case

LETTERS GIVEN TO PROSECUTOR

Health Official Calls Notes Work of Cranks

Action on Hospital Deferred Pending License Action

Owner of Premises Denies Knowledge of Patient

Several threatening letters, one of them intimating attempts on his life, were received late yesterday by Dr. George Parrish, city health officer, who is attempting to bring an official investigation to bear on the case of Mrs. Clara Drummond, "sleeping beauty."

Dr. Parrish said he believes the notes are the work of cranks, and that he will turn them over to the City Prosecutor's office for further investigation.

Representatives of Dr. Parrish's department, seeking to determine whether the woman's condition is caused by an ailment that might prevent public health were refused admittance at the Cunningham Hospital, where she is confined.

Complaints charging Dr. Peacock and Mrs. Parrish with attempting to keep the woman in a place of hospital not licensed as a Class A building and further charging Mrs. Cunningham with operating a hospital without a license, were issued yesterday by City Deputy Prosecutor Compton. Dr. Peacock appeared before Municipal Judge Chambers and hearing was set for Saturday morning. It is expected that Mrs. Cunningham also will appear at that time.

ACTION DEFERRED

Although Dr. Parrish has been informed by Judge Compton that he has a right to examine the woman or require her removal if a temporary restraining order recently granted the woman's husband, Walter E. Drummond, preventing interference with her treatment or her removal to another hospital, for the present Dr. Parrish was withholding definite action for the present.

Dr. Samuel Marcus, specialist in brain diseases, who with Dr. Aaron Rosenau, also a brain specialist, were refusing admittance to the patient, although they have written orders from Dr. Parrish, said last night that if the girl really is a victim of a form of hysteria, as has been stated, that she would be brought out of it in five minutes.

In a statement issued last night, Dr. Parrish characterized the whole affair as "a tempest in a teapot."

PARRISH STANDS

"As health officer, my only interest was to see that the interests of the sick were properly cared for," Dr. Parrish said. "In the presence of a witness I assured Dr. Peacock that I was not interested in his fight with other physicians, nor with anyone else, except that I did not care who treated this woman as long as she was properly cared for."

"I never at any time stated that I proposed to remove this girl from the hospital or to interfere with him."

Another complication in the smoke screen of mystery which has been thrown up around the case developed yesterday, when all knowledge of how the girl came to be brought there for treatment was denied.

According to Dr. Parrish, Mrs. Cunningham, who is named in the complaint, denied knowing anything about the case until the ambulance backed up to the door, and said she had not been consulted.

The license of the hospital was not renewed January 1, by the Health Department on advice from the City Engineers that the house was hazardous. On March 3, Mrs. Cunningham was again served notice by the Health Department to discontinue, Dr. Parrish said.

In the meantime, Mrs. Cunningham had sought six times before the Fire Commission asking temporary continuance on the grounds that she was improving the premises.

Last week Dr. S. J. Howell, member of the Board of Health Commissioners, turned in a memorandum to the Fire Commission, according to Charles McKeag, secretary of the commission, asking further continuance in behalf of himself and Dr. Charles H. Wood, president of the Los Angeles School of Chiropractic, as lessened.

Dr. Howell and Woods have denied any knowledge of the case to Dr. Parrish, and also have denied that there are yet taken any active interest in the hospital.

PEACOCK ABSENT

They say they are inclined to believe he could not afford there and are negotiating with Mrs. Cunningham to take over her lease, but wanted a temporary continuance until the financing of the new building is completed according to their request of the Fire Commission.

The Fire Commission at their meeting yesterday denied this request and summoned Mrs. Cunningham to appear before them next week to show why no further continuance should be granted.

In the meantime, Dr. Parrish said, they have continued to operate without a license.

Dr. Wood denies any previous knowledge of Dr. Peacock, who is a graduate of another college here.

Dr. Peacock could not be reached late yesterday. It was said that he had "gone somewhere to rest." Mrs. Drummond's condition was reported as slightly better at the hospital.

FILM INDUSTRY RENT BY CLASH

(Continued from First Page)

The equity body to draft certain measures declared imperative to the future welfare of players, and these conditions will be presented to producers at the next meeting of that organization.

Producers, according to several Hollywood officials, probably will meet at the Motion Picture Academy of Arts and Sciences next week to consider the issue confronting the industry will be taken up. An actors' committee, it was said, will be received by the producers after they have had a private session relative to the matter.

ASSESSMENT MAPS ADOPTED

The City Council Committee on Street Opening and Widening recommended yesterday that the following assessment district maps, opening and extending Abbott Place from Avenue 81 to Avenue 50; opening and extending of Oak Tree Drive between Alvarado Avenue and Glen Iris Avenue,

Scenes at Official Opening of Division Building

NEW POLICE STATION HAS OPEN HOUSE

Officials and Residents Inspect Georgia Division; Children Entertained

Formal inspection by Chief of Police Davis, the police commission and division commanders was made yesterday of the new Georgia-street police division. Several hundred citizens residing in the territory included in the new division boundaries also visited the station throughout the day, as the guest of Police Captain Hodson and his staff of officers.

A feature of the official opening was the entertainment of the children of more than 400 school children at the noon hour. Ice cream and cake were served.

The new station is one of the most modern in the city, affording more than double the room and facilities of the main central police station. It is located at 1335 South Georgia street. The division includes the territory lying between South and North and San Pedro streets and Vermont avenue on the east and west.

The new station also contains the offices for the main Revenue Hospital which is expected to be opened by Chief Police Surgeon Goodrich next Friday.

Judge Refuses to Jail Man on Hunger Charge

Guggenheim Laboratory Will Test New Flying Principles Without Risk to Life

William Luthy's 26-cent hot lunch—which incidentally was not William Luthy's hot lunch originally or rightfully—and which for a time appeared likely to cause his ultimate consumer a sojourn in the State Penitentiary, finally was disposed of with less grief to Luthy than to those who seemed possible.

Luthy was brought before Municipal Judge Baird on a felony charge of breaking and entering the home of his employer, Judge Baird, the latter ordered a misdemeanor complaint issued and transferred the case to the court of Municipal Judge Wilson.

Yesterday before Judge Wilson Luthy pleaded guilty to the theft of the boy lunch from a downtown cigar store, and was sentenced to sixty days in jail, suspended for two years. Justice was followed by a decision in the misdemeanor court, dismissed the felony complaint against Luthy.

"It is not the policy of this court to send a man to the penitentiary for such a small offense as this," said Judge Baird.

CANTON OPENING ASKED

The City Engineer was requested yesterday in a communication from the Glendale Chamber of Commerce to make a report on the request of the Canton Club to open up the building of a 100-foot boulevard from the eastern terminus of Roscoe Boulevard in San Fernando.

STATE LEADS IN INSURANCE

M. G. Oberweis, California agent for the National Fidelity Life Insurance Company, received word yesterday that California has taken the lead over the twelve other States in which his company does business in the amount of life insurance written during the past year. A silver cup has been awarded the local office in recognition of its record.

Smoke damage cost the United States nearly \$1,000,000,000, equivalent to \$16 for each person in the past year.

SIX-FOOT FALL FATAL TO MAN

C. Parrish Found Dead at Foot of Step梯子 by Apricot Tree

A six-foot fall from a ladder propped against an apricot tree proved fatal yesterday for Abraham C. Parrish, 71 years of age, at his home at 925 West Thirty-ninth street, according to receiving Hospital records.

Parrish, it was stated, had been picking apricots during the morning. At noon members of his family found him dead at the foot of the short ladder. The body was taken to the county morgue.

ANOTHER RAY OF HOPE

The City Council was advised yesterday in a communication from V. H. Bush that the majority or protestants against the Victory Park No. 2 proceeding seemed to be the operators of Castle Boulevard from Avenue 38 to Sherman Avenue in order to give access to Pasadena. The master was referred to the playgrounds committee of the Council.

From 60 to 65 per cent of the passengers on the ocean steamships sailing from this country to Europe are women and girls.

HEARING ON FLOWER WIDENING POSTPONED

Hearing on the confirmation of assessments for the opening and widening of Flower street from Washington to Fifty-eighth streets was postponed by the City Council yesterday until 10 o'clock on the morning of August 4. The action was taken in order that the new Councilmen may have an opportunity to acquaint themselves with the facts in the case. A delegation of property owners was on hand to voice their protests.

Good news for California shippers

perishable products was brought
down from the East by T. J. Stoen
of the Freight traffic manager for theSanta Fe Pacific Company, who re-
ports that the eastern railroads have
improved their facilities in preparation for the

coming of increased fruit ton-

nage from the Pacific Coast.

These improvements will be help-
ful in speeding up the unloading
cars and preventing congestion
at the eastern market points.The large eastern market points
have just spent severaldays in Chicago, Detroit, Boston
and New York interviewing
shippers and industrial leaders. While

the information will be con-

fidential, it will be

communicated to the public

when the time comes.

The government is

still live. Mr. Miller has

Black Hills.

Carrying water

Egyptian women on a

trip. Carrying a

the same thing for Ameri-

ca. Colombo and Porterville, Cal.

Colombo being the answer to my

first question needs no explanation

and no apology. The answer to

the second question needs considera-

tion. It seems that at the city

limits of Porterville signboards

have been erected stating that Po-

rterville is a white man's town and

no Japanese are allowed to dwell

there. All over the world I have

been confronted with pictures of

those foot signs and with the re-

quest to restrain them.

As I was utterly unaware of Po-

rterville's existence and was still

less able to explain the signs I

finally told my inquisitors that Po-

rterville, Cal., is a State's Insti-

tution for Feeble-Minded Caucasians; that all negroes, Mexicans,

Chinese, Japanese and all other

races that are more or less sun-

burned are being taken care of

elsewhere.

Until Porterville, Cal., becomes

less rustic, intolerant and super-

cilious I sincerely advise all would-

be globe-trotters to avail them-

selves of my explanation of Po-

rterville's significance.

Test 'Em Out

EAGLE ROCK, July 5.—[To the

Editor of The Times:] Your edi-

torial of the 1st inst. on "One-Day

Patriots" is to the point. While

the convention method of nominat-

ing candidates was often abused

by wily politicians, the primaries, too,

are lamentably faulty and the

voter rightly reasons that his vote,

at best, in most cases, is only a

guess as to the fitness of the can-

didates. If all candidates were re-

quired to undergo an examination

—something after the civil-service

plan—and the results of the ex-

amination published, it would give

the voter some knowledge of what

he was doing and he could feel

safe in voting for at least one

reasonably capable man aspiring

for official position. It seems to

me this would be practical and

easily functioned. What objections?

W. W. RINGER.

Lightning

PASADENA, July 5.—[To the

Editor of The Times:] I am very

glad the diving-horse act was

stopped at Venice. It ought not

to be allowed anywhere.

People who love horses know

they do not indulge in high jumping

or swimming unless forced to do so.

About twenty years ago I saw

a similar act in a Los Angeles

park. The horses shivered and

balked, but had to jump, as the

trap platform dropped from under them.

It seems to me Lightning was

clever enough to realize the chance

had come at last to end his

tortuous suffering, so he committed suicide.

MRS. J. C. WEBSTER.

Nonstop Process?

SANTA PAULA, July 5.—[To the

Editor of The Times:] I don't

believe that men have the moral

right to exterminate any species

of creature from the earth. The

coyote has a place or a purpose

or he wouldn't be here.

The "Lancer," July 2, 1927.

When a man who is so widely

read as Harry Carr makes such

a sweeping statement as the above

we feel like making a few inquiries.

To "exterminate" means to

destroy; to kill. If man has the

"moral right" to kill or destroy

any one individual of any one spe-

cie, just where is the limiting fac-

tor to that "moral right"? If man

has a "moral right" to kill or

any one species, why not of any o-

ther species? At what scale of ani-

mal nature would Mr. Carr call

the "lunatic?" At times, wolves, coy-

otes, gophers, rats, mice, porcupines,

spiders, scorpions, ants, flies, bees,

ants, Mediterranean fruit fly, ty-

phoid fever and smallpox bac-

teria? And what is a "moral right," anyway?

DANA L. TEAGUE.

Prepares for Peace?

Editor of The Times:] Your edi-

torial in your issue of

Sunday, June 3, is a jewel and

deserves to be printed and reprinted

until it leaves an indelible mark

on the mind of every intelligent

being that war can and must be

abolished. In time of peace prepa-

re for peace shall be the slogan

among all people.

Too long has the world tried to

keep peace by fighting for it.

HEN FARREBINE.

CAMELS STAVE OFF THIRST

There are several reasons, accord-

ing to scientists, why camels can go

longer without water than most o-

ther animals. As a rule a camel will

not begin to suffer from thirst until about

three days.

The camels' great capacity to

store fat in their bodies is one of

the factors.

A slender camel can store

forty pounds of fat in its body.

And there is one other factor.

Camels have a thick coat of hair

which helps to protect them from

the heat.

And there is one other factor.

SEVEN PER CENT LAW CLARIFIED

Assessor Replies to Flood of Inquiries

Reiterates Contention of Unconstitutionality

Intangibles to be Taxed on Old Basis

A statement intended to clarify the confusion and misunderstanding resulting from the passage of the amendment to the 7 per cent law, which contemplates taxing stock and bonds on a new basis, was issued yesterday by County Assessor Hopkins.

The statement, in the form of a letter to M. Hugg, vice-president of the Citizens' Movement Bank, came in response to a veritable flood of inquiries from banks, bond houses and individuals in other States contemplating a change of residence to California.

In the statement, Mr. Hopkins made it clear that he considers the amendment to the existing 7 per cent law unconstitutional and therefore void. Consequently, intangibles continue to be assessed in the same manner as they were before the amendment passed by the last Legislature.

Mr. Hopkins pointed out what prior to 1924 the constitution of the State required that all property be assessed at its full cash value. Through common practice, however, 50 per cent came to be considered as full value.

INTANGIBLES WITHHELD

The secret of the law was that physical property paid on that percentage while intangible property, such as stocks and bonds, were withheld from the Assessor on the basis of non-residence or the claim that they could not afford to pay such exorbitant taxes to become residents of California.

To meet this situation, the Legislature in 1924 passed the 7 per cent law, which became effective in March. Under this law, intangibles, securities, shares of capital stock, bonds, solvent credits and mortgages and trust deeds were assessed at 7 per cent of their full cash value but the current rate of taxation, which consisted of 50 per cent, as the full cash value, was applied.

The success of the law was immediate. Thousands of persons, residents and those formerly claiming to be non-residents, turned in their lists of securities so that the amount of taxes collected in its first year of operation at the lower percentage of valuation was one-half of the amount collected under the old law at the higher valuation. One of the most satisfactory results was the lower taxes paid by those who had formerly been taxed such large percentages of their income.

RETURNS INCREASE

Mr. Hopkins pointed out that the opening of the present year showed a marked increase in the number of returns filed with him, with many persons who had wanted to know how the law would operate submitting their lists of securities for assessment with the statement that they were satisfied that the law was constitutional.

These heavy returns ceased almost immediately with the news of the attempted repeal of the 7 per cent law and the later amendment which took the place of the proposed repeal.

Mr. Hopkins submitted the amendment to the County Council, who held it unconstitutional and void.

The Legislature accepted the amendment and concurred in the constitution, and this is not probable in view of the fact that the Governor refused to call an extra session at the termination of the last session.

These heavy returns ceased almost immediately with the news of the attempted repeal of the 7 per cent law and the later amendment which took the place of the proposed repeal.

Mr. Hopkins added that it seems quite certain now, "in view of public opinion," that it will be impossible to muster two-thirds of the members of the Legislature to sustain an ill-considered act."

ILLNESS FAILS HIM SO HE TAKES OWN LIFE

PROCEEDINGS INSTITUTED TO IMPROVE PALISADES THOROUGHFARE

Institution of proceedings for the widening of Palisades Beach Road from Colorado Avenue in Santa Monica to the old Southern Pacific pier in Los Angeles was requested in a communication from the City Engineer and City Attorney of Santa Monica received by the City Council yesterday.

The proceedings would involve the securing of the title to the property comprising the Southern Pacific right of way northeasterly of Palisades Beach Road as it now exists. The work would be carried out under the provisions of the Improvement Act of 1924. The matter was referred to the Council's Street Opening and Widening Committee and to the City Engineer for consideration.

EXPERT TO GIVE MORE TIME TO TRAFFIC PLAN

Further study and promotion of the Major Traffic Plan will be carried on this summer by Harland Bartholomew, city planning expert and consulting engineer of the Los Angeles Traffic Commission. Mr. Bartholomew came from the East to carry on his work. He was retained by the Board of the American Institute of City Planning, which will hold a convention in New York in November.

REQUEST MADE FOR NEGRO COMMISSIONER

A request from the United Veterans of the Republic, Unit 112, asking that a representative of the colored race be appointed on at least one of the following commissions, Civil service, park or playground, was received by the City Council yesterday. The Council instructed the clerks to advise petitioners to take the matter up with Mayor Cryer, who alone has the power of such appointment.

MASSONS TO HEAR SPEECHES FOUND, DEAN OF MASONIC COUNCIL TO SPEAK IN PARIS. (AP)—Mass and hand hatchets will be given to Masons under arrest in Paris. Usually held in the accessory arsenals, these crepes de cheveux and other ensigns match the dress and colors of the Masonic lodges. The Massons will be given to the French Government by the County Jail and the Masonic Lodge of the Masonic Club of Paris. Prof. Foulkes, the speaker of the Masonic Club, will speak at the Masonic Museum at Washington, D. C., on July 10. Prof. Foulkes is the author of the first diplomatic section of "White Hand," after her husband became President.

REALTY BUS RULES SOUGHT

New System of Regulating Soliciting of Patrons for Land Tours Requested of Council

A new system of regulating real estate sightseeing buses and men and women solicitors associated with them on downtown streets was requested in a resolution offered to the City Council yesterday by Councilman Hall.

Both the real estate men and the public are dissatisfied with the present arrangement and regulations governing the buses and solicitors, it was said. Under the present arrangement the Board of Public Works grants permits to the buses to stand on the sidewalk and solicitants with their "spies" and efforts to induce passersby to accept cards and get on the buses.

The resolution was referred to the traffic and lighting committee for study and report at a later date.

Wright Asserts Ignorance as to Plans of Young

Flattering, but surprising, are reports that Gov. Young intends to amend the 7 per cent law. Consequently, intangibles continue to be assessed in Los Angeles county under the provisions of the old 7 per cent law, without regard to the amendment passed by the last Legislature.

Mr. Hopkins pointed out what prior to 1924 the constitution of the State required that all property be assessed at its full cash value. Through common practice, however, 50 per cent came to be considered as full value.

INTANGIBLES WITHHELD

The secret of the law was that physical property paid on that percentage while intangible property, such as stocks and bonds, were withheld from the Assessor on the basis of non-residence or the claim that they could not afford to pay such exorbitant taxes to become residents of California.

To meet this situation, the Legislature in 1924 passed the 7 per cent law, which became effective in March. Under this law, intangibles, securities, shares of capital stock, bonds, solvent credits and mortgages and trust deeds were assessed at 7 per cent of their full cash value but the current rate of taxation, which consisted of 50 per cent, as the full cash value, was applied.

The success of the law was immediate. Thousands of persons, residents and those formerly claiming to be non-residents, turned in their lists of securities so that the amount of taxes collected in its first year of operation at the lower percentage of valuation was one-half of the amount collected under the old law at the higher valuation.

THE SECRET OF A GOOD COMPLEXION

It rests largely on two factors: Keeping the skin clean, the pores open and using ONLY a true complexion soap—in this way.

That rule is credited with more beautiful skins than any other known. Use powder, rouge, make-up all you wish. But never let them remain over night. Follow one week, then note the difference in your skin.

Get Palmolive today. But be sure it is GENUINE Palmolive. Costs but 10¢ a cake.

Sopaps represented as of palm and olive oils without the Palmolive name are usually crude imitations. So take care. The Palmolive-Peet Co., Chicago, U. S. A.

Wash your face gently with warm water, then with cold. Do this regularly and particularly in the evening.

That rule is credited with more beautiful skins than any other known. Use powder, rouge, make-up all you wish. But never let them remain over night. Follow one week, then note the difference in your skin.

Hence, largely on expert advice, thousands use Palmolive Soap. A soap made solely for ONE purpose—to safeguard good complexions. A beauty soap you know is safe to use.

Wash your face gently with warm water, then with cold. Do this regularly and particularly in the evening.

That rule is credited with more beautiful skins than any other known. Use powder, rouge, make-up all you wish. But never let them remain over night. Follow one week, then note the difference in your skin.

Get Palmolive today. But be sure it is GENUINE Palmolive. Costs but 10¢ a cake.

WOMEN CHIEF RADIO BUYERS

Simpler and prettier sets due to their demand

Melba French Barr Again on KHJ Broadcast

Hollywood Bowl Concert to Be on Air Tonight

BY DR. RALPH L. POWER
I don't know if anyone has settled the dispute of whether or not the only concession is aimed at the women buys.

The automobile industry had to change its entire method of advertising and sales approach to aim at the mother and sister of the family. Even cigarette advertisements now have a feminine tinge to copy and the radio publicity of the season, it is generally agreed, is aimed at the women folk of the family.

The cumbersome three-dial set was relegated to the ash heap and the single-dial control came into style because it was easier for the woman to use. The high-end-of-the-line cabinet designs didn't last long, for the fair sex determined that it wanted something much more classy in the line of radio cabinets. And they were forthcoming without delay.

NEW FIELD OPENED

But the women of the family did not buy entirely by sight. The men are more patient with a set, but the ladies want distance and plenty of it. They want clear reception and demand it.

Women demands considerable of radio, but on the other hand radio offers women countless opportunities that have been closed to her in the past.

Wimble fingers in radio factories can perform many operations that the woman's fingers can perform best. She finds chances in the business activity of radio as well as in writing. In the form of studio staffs and radio committees are assuming important positions. Women have found in radio a new field of activity.

KHJ CONCERT TRIO

The KHJ program of last evening opened with the KHJ Concert Trio, which presented a special program in honor of the birthday of Leila Davies, cellist of the group. There was also a solo from the young Elizabeth Larson, reader and pupil of Winifred Pollard; Georgia Mae Young, 12-year-old violin pupil of Miss Lissette Kao Kalova of the Hollywood Conservatory; and Wanda, 12-year-old piano pupil of the Olga Street School of the Piano, playing one of her own compositions and other numbers; Rosetta Lewis, "Curly Locks," in some Guest reads; Dickie, pianist, who is Juvenile, in the radio studio; and George Cook, saxophone pupil of Lewis D'Imparato of the Thompson Progressive School of Music.

The later evening program on KHJ brought the fine radio voice of Melba French Barr once more to Radioland.

Her soprano solos interspersed the string music with numbers by Eddie Miller, and Gardner, together with a selection from "Le Boeheim." Miss Barr, although not often heard via radio, is always one of the outstanding musical treats of Radio City.

The K-H-J Quartet program opened with the N.Y.C. of an American composer, Edmund Wilson. Some two years ago the composer was in Los Angeles to write special music for film and while here composed a quartet which he named "The Rumba Zone."

They played two movements of the work last evening, and both movements expressed a strong spirit of happiness and a lively, energetic passion. It is an exceptionally fine in this work.

Other splendid numbers played on the program of the evening were "Candy Cane," a carol, "Song from Quartet No. 6" by Moran, and the ever beautiful and appealing "Music of the Spheres," by Rubinstein. These compositions, as played by the Zoellners, displayed a remark-

Harmony in Radioland Today

LOS ANGELES POLICE QUARTET
Officers Sing at KFXB Fridays at 4 P. M.

able uniformity of spirit in interpretation of the players. Although thousands have visited the grand hotel and residence hills of Hollywood during the six seasons of the "Symphonies Under the Stars" at the Hollywood Bowl, the first broadcast of a program from the great open-air amphitheater is only after 8 o'clock. Previous to the actual symphony offering, an announcer will describe the scene of beauty, and will paint a word picture of the great outdoor concert. While it is rumored that an even half-dozen of the Bowl concerts will be broadcast through KFI during this summer season, no definite announcement of dates has been made under the fact that the first Bowl symphony presentation of tonight.

At 8 o'clock this afternoon, as on other Friday evenings at the Los Angeles Police Quartet will offer a little close harmony under pressure in the studio of KFXB. Officers Stewart, Meahan, O'Malley and Goerner sing in conjunction with the tram school produced by the local bureau of public safety.

POLA FILM AIMED AT WAR HATES

Serious Theme Pervades Met Picture Attraction; Rube and Nell Gladden

BY EDWIN SCHALLERT

All the fun at the Metropolitan Theater this week is in the prologue.

"Barbed Wire," the picture feature, starring Pola Negri, is as serious as entertainment can well be, although it justifies the adjective meritorious as to its purpose.

Furthermore this film presents one of the best recent performances that Pola has offered in a role outrightly sympathetic. It is not as exciting a picture as "Hotel Imperial," but if slow, seems to furnish her better personal opportunities as a star.

Rube Wolf and Fanchon and Marco are responsible for a very excellent stage presentation. The Fanchon and Marco offering is embellished with many more girls than the one that they gave at the Metropolitan two weeks ago which I believe was their last full-panoplied production act.

As a stage act this new presentation meets the requirements of amateur as well as interest and piquancy. Fanchon and Marco seem to have hit their stride in the new environment.

Neil Kelly and Rube are again the luminaries, and again do they win with a burlesque number. This time it is Spanish, song and dance, that they traverse. Rube drags Neil around by the neck and throws her over his shoulder, and they rub heads, if not noses, in a dance that is nothing if not quiet but that makes the audience call for more.

Oscar Taylor gets a good hand and an encore for his singing of the "blues" song, "Blues." Incidentally, is the "idea" of the show, and it is definitely carried off with beautiful costumes and also settings and effects.

The serpentine dance which closes the act and which is very well done seems somewhat repetitious but its popularity probably insures its success with the public. It is time, however, that somebody was finding a substitute for the serpentine, no matter how big an achievement it is. It has been in vogue for half a century and is tiresome with its origin, he having put it on in the Hollywood Music Box Revue, of artistically favored memory.

"Barbed Wire" professes a theme of brotherhood, but it is difficult to perceive. Indeed, it assumes the character of a preachment against war.

Those who like their film entertainment to provide a very purgatorial trip will heartily applaud the sentiment of the film.

"Barbed Wire" tells the story of the love between a French peasant girl and a "Boche," an inmate of a prison camp, the girl is located on her father's farm. The plot has much to do with those narrow-minded hats that exist against any enemy nation in the minds and hearts of citizens, as well as a broad feeling that often develops between soldiers who are forced to face each other in the field of battle.

Love and hate are brought into sharp conflict in this story, yet at times the contrast was almost too obvious to make for good drama. It has that quality of being patent rather than real, and one might wonder if the author did not set up a scheme of situations that seem almost too perfectly devised with the aim of putting over a certain definite argument at the close.

Emotionally the film comes close to touchingly sincere at many moments, and in the case of some people it perhaps will, but personally I find that elemental surge that makes great drama. Furthermore, there is a sense that war pictures are on the wane.

Except for the slowness in tempo, which at times terrific, the picture is very consistently directed. Rube Lee being responsible. Claude Gillingwater, in his direction, is not acceptable performance, while Claude Gillingwater, whom one does not see so often lately, is very good as the father of the heroine. The portrayal of Hanson, as the brother of the hero, is touching. The war is particularly touching, as it reveals the tragedy of his recent death.

Glyde Cooch contributes some incidental comedy that is dragged in after the typical movie fashion. The Gullane Sisters are a mere gag, and Charles Lane is also in the cast. Jules Furthman made the adaptation from the novel, "The Woman of Knockaloe," by Hall Caine, Eric Pommer supervised and no doubt helped to give the film its sweepingly authentic atmosphere, though doubtless part of this may well be sacrificed to Lee, who himself served abroad during the war.

MRS. CARTER TO BE HONORED AT BOWL

Appreciation Night for Beloved Founder Announced by Management

BY ISABEL MORSE JONES

Artie Mason Carter is to tender an "appreciation concert" at the Hollywood Bowl. This announcement came from Mrs. Leland Atherton Irish in the interim between the symphony and the novelty number on last night's program. An ovation for Mrs. Carter followed the mention of her name and Mrs. Irish stated that the management was only awaiting Mrs. Carter's decision as to the date before making a more definite statement.

Alfred Hertz, the popular "first conductor" of the Bowl orchestra, led the players through a program of Beethoven, Schumann's "Spring" Symphony, the bewitching Mother Goose Suite of Ravel's and Stravinsky's "Barber's Bride" overture. The audience half filled the Bowl and the night was again balmy.

The Scherzo of the symphony awakened the listeners to an evanescent loveliness. The infinitesimal rhythms of all young life danced with the dancing movement of the realization of the possible beauty of a ballet dancing its exquisite way to the music of this third movement, came repeated to mind.

The highlights of the program were one of the highlights of the Bowl program, "Mother Goose," with its childlike seriousness and its artful play was captivating. Ravel is at once the most interesting of the French modern composers. He has given us in "Mother Goose" a charming pleasure of sound with a light "program," which crystallizes the fairy

Eminent Conductor is Guest

Bruno Walter
Who will lead the next four concerts "under the stars" at the Hollywood Bowl, the first of them tomorrow night.

"MR. WU" USES ODD LIGHTING

"Reverie shadows" are the latest screen technique.

This is the strange device by which a dramatic sequence was dimmed in "Mr. Wu." Lon Chaney, not in his riding vehicle which was produced at the Metro-Goldwyn-Mayer studios, coming to Loew's State Theater today.

Chaney carries on all his action in this strange scene before a great carved door, through which the sun-

splendor which children and artists understand.

It is to be directed by Alfred Hertz tonight will begin with the Tchaikovsky Fifth Symphony. Oleg Stech, the pianist of whom Los Angeles is justly proud, is playing the concerto, and George Szell and Wagner's "Prelude and Love Death in 'Tristan and Isolde,'" a number which closely associates with the heart.

The new curtain will close the concert.

The new curtain will be shrouded in darkness designed by Louis Wright, is even more acceptable to the eye upon second viewing. The interesting planes which Mr. Wright has evolved out of straight lines make the scene look like a picture of surrounding roundness of hills are an aesthetic delight in keeping with the sophisticated knowledge of the lighting art which was built up.

The eye could easily dispense with the antiquated "Robin Hood" tree stump, which disfigures the landscape back of Mr. Wright's artistic arrangement, however.

Naval Drama Boasts Cast of Favorites

A stage actor and a former Police girl are co-starred in "Convoy." Robert Kane's story of the navy, which opens today for a week's showing at the Uptown Theater.

Robert Sherman will be seen as Eddie Dunn, head of the German secret service in America at the outbreak of the war, and Dorothy Mackall, pretty little English girl who rose to screen prominence from the Fox lot, and the Fox girl's role of the heroine, who sacrifices her reputation to safeguard the sailing of a convoy on which her brother and sweetheart are leaving for France.

"Convoy," boasting a cast including Buster Collier, Lawrence Gray and Ian Keith, is filled with episodes of naval life.

The naval environment is furnished on the stage at the Uptown by Dave Good and his Reavers.

FRESNO COUNTY SOIL STUDIED

World Noted Scientists Stop There for Day

Explanations for Alkali and Hardpan Given

Interest of European Nations in Farming Shown

PRESO, July 7.—Headed by Prof. Charles F. Shaw, soil technologist of the University of California, and president of the American Soil Survey Association, a party of the world's most distinguished soil authorities representing thirty-three nationalities and speaking twenty-four languages, today arrived here from the annual meeting of Fresno as a part of a trip by special train to various parts of the country following the convention of the International Society of Soil Science at Washington, D. C.

Hardpan and alkali soils were studied in a large excavation that had previously been prepared for their inspection, and later the scientists were taken to the Kearney experimental farm, where they saw successful demonstrations of the possibilities of reclaiming alkali land and converting it to successful bearing acreage.

In both instances numerous samples were taken by the visitors for future reference in connection with research work and demonstrations.

Prominent among the visitors whose party numbered about 200, included a number of writers. Dr. K. Glinsky, of Leningrad; Dr. Rostov, president of the International Society of Soil Science; Dr. D. J. Hiscox of Groningen, Holland, secretary of the United Nations; Dr. H. E. C. F. Marrett, chief of the American Soil Survey; Dr. Fenck, geographer, Berlin, Germany; Dr. Weigner of Zurich, Switzerland, authority on "colonial agriculture"; Dr. Schleicher, director of the famous agricultural college in Germany; Count De Sigmond of Hungary; Dr. Miklasek, soil scientist of Russia; Dr. T. J. Russell, Shear and S. T. Jensen of Denmark; Dr. L. L. Johnson, Dr. F. Terlikowski of Poland; Prof. H. Mikles of Germany, and Sir E. John Russell of Great Britain. Japan also had several representatives in the party.

Members of the party were interested primarily in studying the development and formations of soils under certain conditions of climate and environment, and in determining the character of the territory in which every tree has been planted by man except along the rivers and streams, and where all agriculture is dependent upon waters transported to the land by man.

Retiring Lions President and Wife Given Gift

INGWOOD, July 7.—The most costly percolator an after-dinner coffee set that could be purchased in the Southland was today presented to Hack Miller, retiring president of the Lions' Club, and to his wife, in token of the closing of the business he had had in the club during the last year. The costly gift was all the more appreciated by the couple as today happened to be their anniversary, the twenty-second. The contract between the city and Mr. Miller was particularly striking today, as in celebration of his relief from the duties of president he appeared garbed in a pick and shovel, carrying the gift in a dirty pocket.

The gift of solid silver and porcelain, included in addition to the percolator, a set of coffee cups, chop plate with solid silver warmer, coffee pot, sugar and creamer, and several other articles. The presentation was made by First Vice-President Gerald F. Sparling. On Friday evening the Ingwood Lions will be host to the boys of the Lark Lodge Home in Hawthorne, who will pay a visit to the Mission Play at San Gabriel.

LA HABRA MASON'S AT HOME IN NEW TEMPLE

LA HABRA, July 7.—La Habra Masons established themselves last night in their new temple, a two-story brick building. The community assisted the Masons in dedicating the new home through actual use, a large number crowding the main meeting hall. The dispensation to the lodge to continue its work in the community was given by Henry McKeyser, inspector for the district. William S. Baird, Los Angeles jurist, outlined the work which a Masonic lodge is expected to do in the community and told of the success of the Masonic movement throughout the state, especially in place of Percy M. Weidman, Thirty-third Degree Mason of Los Angeles, who was unable to attend the meeting. Among those making pledges of support were George L. Lemon, master of Silver Lodge; N. Thompson, master of the Fullerton Lodge; H. Starbuck, master of Asia Lodge, and K. Hayes, master of Asia Lodge, Linda Lodge.

NEW OXNARD ROAD PLANS FURTHERED

OXNARD, July 7.—Plans for the extension of Oxnard Boulevard and the construction of a new paved highway a mile and a quarter in length to connect with the State highway between Los Angeles and Santa Barbara were furthered here today, when Harold D. Dale, right-of-way agent for the California Highway Commission, met representatives of the Oxnard Chamber of Commerce relative to securing deeds. While only a short section, the new piece of road was of vast importance to that area as well as the sections of the distance between Oxnard and Ventura and provides a more direct route from the main highway to this city. It will ultimately be a portion of the Oxnard-Santa Barbara highway from this city to Santa Monica. The proposed improvement will eliminate the present dangerous grade crossing near El Rio, where numerous accidents have occurred.

MILLION IN TWO DEALS

Glendale Leases for a Total of \$1,100,000 Made on Broadway West of Brand Boulevard

GLENDALE, July 7.—Two leases that were concluded today for property on West Broadway, between Brand Boulevard and Central avenue, call for the payment of a total of \$1,100,000 during the ninety-nine years that the leases will run and for the construction of buildings in the near future.

The lease was made between D. J. Hanna, local capitalist, 212½ West Broadway, and the Edwards & Willey Company, that now occupies offices on the site leased at the northeast corner of Broadway and Central avenue, the terms of the lease.

Edwards & Willey Company also agrees, within five years, to erect a suitable building on the site, that fronts eighty-eight feet on Broadway and extends back to Western Avenue.

Mr. Hanna bought the site in 1921 for \$18,000 and today it figures in the lease as the other instance. Max L. Orton, vice-president of the Valley Mortgage and Finance Company, 213 East Broadway, has leased the Mason Building at 212-214 West Broadway for ninety-nine years at a price of \$100,000, and as soon as the new building is erected he expects to also

plans to build on the site, replacing the present one-story structure with a larger building.

West Broadway, within the past few months, has taken on an entirely new aspect, as various business establishments have secured locations on the two blocks between Brand Boulevard and Central avenue, and one of the new developments is the opening of a new street, the west extension of the old Broadway.

At the special election last night other officers chosen included Dr. J. Russell Shea and Marvin Griffith as additional trustees, and J. Larson as treasurer.

Vice-Admiral of Sea Force Pays Long Beach Call

LONG BEACH, July 7.—A formal call, observed with pomp and ceremony, was made this morning by Vice-Admiral L. R. de Steiguer, commander of the battleship force of the United States, on Mayor George C. Maynard of California, and the City Council of Long Beach. The call was the aftermath of an informal visit made to the officers of the fleet in Los Angeles Harbor yesterday by the admiral on the way to the administration.

The municipal band, taking its stand in front of the City Hall, welcomed the Vice-Admiral and his staff of 120 men with a hearty greeting, and assurance of the welcome that Long Beach holds for the officers and men of the fighting fleet. Long Beach has for many years been the home port of the majority of the task force, and the admiral was as well as a large percentage of the enlisted personnel.

TAX VALUATION FOR LONG BEACH SAME

LONG BEACH, July 7.—Tax rates for Long Beach for the first year of the newly-inaugurated city administration will be based on an assessment of \$19,000,000, it was said at the City Hall today. The valuation will be virtually the same as last year, except for the addition of \$3,000,000 for new buildings.

It was also indicated that it is anticipated that the City Council, which will sit as a board of equalization next month, will order a blanket reduction of City Assessors' Bridge's valuation.

Assessors' Bridge's valuation for last year were \$168,867,565 for nonoperative property, which is taxed by the city, and \$12,189,400 for operative property, taxed only by the state.

FORMER ENGINEER OF LONDON BURIED

MONICA, July 7. (AP)—Funeral services for Maj. Alexander Millard, former chief construction and tramway engineer of the London (Eng.) County Council, were held yesterday at 11 o'clock today. Maj. Millard died at his home in London, where he had been residing for several years. The body was brought here for burial by a brother, Bruce Millard, of this city. Another brother, the Rev. Dr. Alexander, of the United Church of Canada, is one of the Dominion's most prominent clergymen. Maj. Millard was 65 years of age. Death was caused by intestinal influenza.

GUILTY PLEAS DRAW DOUBLE SENTENCE

PRESO, July 7.—Dan Tarack, a rancher, must serve nearly 20 years in jail as the result of entering pleas of guilty to charges of possession and sale of liquor, with which he was jointly charged with his wife, who because of her three small children, was given a suspended sentence of six months. Tarack pleaded guilty to a judge's court to the possession charge, which was set at \$100, and will serve 600 days in jail and he could not pay the fine. When he pleaded guilty in the Superior Court to the same charge he was given a total of 600 days, making a total of 660 days he must serve.

PAINTING EXHIBIT OPEN

PASADENA, July 7.—The summer exhibition of paintings will open Saturday at the Pasadena Art Institute, Carmelita Gardens, tomorrow, with works including those of members of the Pasadena Art Association, Arthur W. L. D. Wolf. There is also a large collection of oil paintings and water colors which have been lent by Mrs. H. A. Everett. The exhibit will be on during the entire summer.

VENTURA COUNTY IN PUBLICITY CAMPAIGN

VENTURA, July 7.—Ventura county during the remainder of 1927 and 1928 will be advertised all over the United States in newspapers and magazines through the medium of the advertising placed by the All-Year Club of Southern California. It was decided by the Board of Supervisors to spend \$10,000. By subscribing this amount Ventura county's name will appear along with the names of other counties of Southern California in the advertisements.

Is An Underfurnished Home Cheerful?

Of all places, home should be the abode of geniality and content. Furniture helps to make it so. How surprising a difference when you add pieces of furniture here and there! . . . stern walls recede . . . empty corners are made inviting.

In the "Miscellaneous For Sale" columns of TIMES WANT ADS you may select attractive pieces of furniture and equipment for every room in the house—from living room to kitchen. Perhaps you will want a number of things, for the prices are exceedingly low.
